MHC Series, Electric Hot Food Display Cases

**While everyone else says there optional...
only Marc offers these kind of features STANDARD!**

• Your Choice of Decor Matched Exteriors, FREE!

You can't name a color that is not available: *brilliant blue, green marble, honey maple, black...* Marc offers hundreds of decor matching exterior panels at no extra cost! Call us with your choice. We'll match it from our enormous collection of finishes, FREE!

• Quality Construction Insures Dependable Service

Mirror finish, stainless steel trim beautifully accents the decor matched exterior panels while the same mirror finish stainless steel is used on the interior to provide for the most sanitary food service conditions. A heavy gauge steel frame insures years of dependable, rust resistant service.

• High Visibility Merchandising Features

The tempered glass display front is perfectly angled for the least amount of glare for optimum display. Full length lighting offers exceptional merchandising opportunities.

• Easy Access Keeps Labor Costs Down

The rear access doors are fully removable for continuous uninterrupted access. The full length cutting board insures a maximum food prep and work area. Designed in a drop-leaf fashion, the cutting board can be neatly tucked away during clean-up.

• Constant Temperature Control for Each Steam Well

The electric wells are individually controlled by independent thermostats. This insures uniform heating of wet or dry foods. The wells are heated by 220V electrical, 1 or 3 phase.

• Plumbing is Completely Set-Up and Ready

All interior plumbing is ready to go with a few simple connections. A gate valve on each well is provided for easy drainage and is designed to be virtually maintenance free.

We reserve the right to change the specifications without notice.

Marc's MCH Series Hot Food Cases are available in 4', 6' and 8' lengths! They match up to Marc's MDL line, too!
